

Daily Review

- What is $c+5$ if $c=15$?
- Combine like terms: $x+x+x+x+x$
- Create two equivalent expressions for $24x+12$.
- Solve: $5x=20$

The background features a stylized landscape. The top portion consists of several overlapping, semi-transparent green mountain peaks of varying heights and shades. Below the mountains is a wide, bright yellow field that has a slightly grainy or textured appearance. The bottom edge of the yellow field is irregular, suggesting a torn paper effect, and it meets a dark green base at the very bottom of the image.

Review Homework

The background features a dark green top section with a pattern of overlapping, semi-transparent triangles. A horizontal band of bright orange with a fine, woven texture separates this from a dark green bottom section, also with a triangle pattern. The orange band has a jagged, torn-paper-like edge at its top and bottom boundaries.
